STUDENT INFORMATION DOCUMENT

Dear Student,

The first annual **Young Minds New Ideas - CYPRUS Project Market and Joint Exhibition of Graduation Projects**. The event will be held on May 8, 2026, hosted by Lefke European University.

In the GBYF Idea Competition, students from the Computer, Software, and related Engineering Departments of universities established in the TRNC will present their project ideas. Our aim is to enable students to showcase their creativity and encourage innovative thinking.

Competition information, evaluation criteria, and procedures are provided in the attachment.

Best regards,

GBYF-CYPRUS 2026 Organizing Committee

GBYF CYPRUS PROJECT REGISTRATION AND EVALUATION PROCESS

1. Step 1: Submitting project applications, uploading the project poster to the system:

Students wishing to participate in the competition must submit their projects by filling out the information on the application screen and uploading their project posters (dimensions and standards are specified in the sample poster) to the following address: (<http://www.gbyfkibris.org.tr/ProjeBasvurusu.aspx>) no later than Wednesday, May 5, 2026, at 18:00.

will be printed vertically in A1 size (594x841 mm) and brought to the exhibition area for presentation on the day of the competition.

Bringing presentations, visuals, prototypes, improved samples, software, and hardware products that will support the project's promotion to the competition exhibition area will be helpful in evaluating the project.

2. Stage: Evaluation in the Exhibition Area

You are expected to arrive at the exhibition grounds **no later than 09:00** on the morning of the event .

- On the morning of the event, you will be assigned numbered booths where you can hang your posters and make all the necessary preparations for your project presentation.
- Between 10:30 and 15:30, each project will be evaluated by the assigned judges at the booth area.
- Projects submitted to the exhibition are evaluated according to the criteria of Originality, Widespread Impact, Feasibility, Implementation Success, and Presentation Quality.

- The jury evaluation will be conducted by the GBYF Cyprus Peer Review Panel.
- a scale of 1 to 10 based on each evaluation criterion .

3. Stage: Category Finals

The competition will be held in two categories. Based on the initial evaluation results, the top 6 projects in each category will be presented to all jury members and the protocol team during the evening session, which will also be held from 16:00 to 18:00.

- At this stage, the finalist projects will be presented on stage by the students who created them, so it will be to your advantage to make all the necessary preparations beforehand to strengthen your presentation.
- Presentations are 3 minutes long, and there should be no comments, questions, or answers during the presentation.
- Students may also present their project demo as a video, not exceeding 3 minutes in total.
- The moderator will issue a warning to groups exceeding 3 minutes; however, groups that continue will have their question-and-answer time shortened.
- Project teams are required to explain to the reviewers the materials and information resources they used while carrying out the project, and to identify the individuals/organizations that supported and guided them.
- All judges in a category re- evaluate all submitted projects. At the end of the evaluation, the three projects with the highest scores are determined as first, second, and third in that category.

EVALUATION CRITERIA:

Evaluation: 1 : Weak - 10 : Excellent

Unique Value: The innovative aspect of the project, its originality, and the contribution it offers that sets it apart from similar projects.

Widespread Impact: Contribution to the national economy and scientific knowledge, potential to provide solutions to societal problems.

Feasibility: The likelihood of the project being implemented, the chance of the proposed product being used if the necessary resources are provided.

Implementation Success: The extent to which the project's functions have been made operational and ready for use.

Presentation/Demo Quality: The successful presentation of the work within a specific flow.
